What's New for *exocad DentalCAD*

Update Content	RevEX Scanbody Update Library
Date	21 September 2023

Portfolio Update with addition of RevEX-Scanbodies to existing Straumann library

The two newly added RevEX Scanbodies for SRA Screw Retained Abutment can now be used in the following new Implant Series:

Straumann_Variobase-Bar_Bridge_local-milling_fda_3.1.zip

Straumann® - Variobase® Bar and Bridge (Local Milling) FDA	SRA Screw Retained Abutment 3.5 - Straumann SRA35 025.0082 (RevEX)
	SRA Screw Retained Abutment 4.6 - Straumann SRA46 025.0083 (RevEX)

Note: This library version is not signed yet, which prompts exocad DentalCAD to show a warning when selecting this library. This is not a blocker and will not cause any harm to your System.
Please ensure to use Straumann_Analogs Version 4.1 or newer in connection with this mentioned new library!

Please ensure that you read the Design Guideline and IFU for the product.
