ZAGA COURSES

DETAILS

DATES & LOCATION

June 18-21, 2024

LOCATION: Barcelona, Spain

COURSE FEE

€6,100

Discount 10% with promocode
STRAUMANN10

Creator of the ZAGA method and philosophy, an innovative systemic approach to the treatment of patients who present a lack of maxillary bone necessary for the fixation of an implant.

Course overview

This intensive 3-day course draws on more than twenty-five years of experience with zygomatic implants in the rehabilitation of the extremely resorbed maxilla, according to Zygoma Anatomy Approach (ZAGA).

Our course is tailored for surgeons that want to see more complex zygomatic implant cases and want to learn the evidence-based Zaga method. This consists of a series of techniques, materials, and protocols designed to achieve long-term results and prevent surgical and prosthetic complications. The benefits and limitations of different surgical techniques, including intra and extra-sinus approaches, will be discussed. Detailed insights into Dr Carlos Aparicio's ZAGA philosophy and the ORIS success code will be provided.

The course includes hands-on 3D dental models and includes either surgical exercises on cryopreserved donor heads or live surgery depending on the edition.

Topics

- Zygomatic Implants

Dr. Carlos Aparicio
Barcelona, Spain
